

Bug #1

See all Bots button doesn't show bots

Steps to Reproduce

- Navigate to localhost:3000
- Locate See All Bots button
- Click on it

Expect Results

- A list or grid of all the bots in the game

Actual Results

- No list appears, has an error 400 (bad request) message in console log.

Environment

- Windows 11
- Chrome 107

Bug #2

Win and Losses score displays incorrectly

Steps to Reproduce

- Navigate to localhost:3000
- Clicked on Draw
- Select two bots that will fight
- Click on the duel button
- Repeat until you have at least one win and loss

Expected Results

- If I lost, the losses goes up by one
- If I won, the Wins goes up by one

Actual Results

- The losses counter will go up by one if you win, leaving the win counter at 0

Environment

- Windows 11
- Chrome 107
